DISCOVER NEW PATHWAYS IN ALZHEIMER'S AND DEMENTIA RESEARCH

SEPTEMBER 25-27, 2019

Sydney, Australia

Hyatt Regency Sydney

Join leading experts at the Alzheimer's Association International Conference® (AAIC®) Satellite Symposium — September 25-27, 2019, in Sydney, Australia — to explore emerging dementia research in Oceania.

As part of the year-round learning opportunities offered by AAIC, global researchers will discuss brain health and dementia risk, developments in Alzheimer's and dementia clinical research, the role of psychosocial, care and non-pharmacological interventions in Alzheimer's and other dementias, epidemiology, advances in biomarkers, emerging areas of investigation and more.

Register today at alz.org/sydney.
